| <b>The University of Chicago – Centre for Global Health</b> | The University’s mission is to collaborate with communities locally and globally to democratize education, increase service learning opportunities, and advance novel, transdisciplinary, and sustainable solutions to improve health and well-being while reducing global health disparities and inequities. | The university’s global health department lists a number of government agencies, organizations and trust that award funding to global health related projects.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | <a href="https://cgh.uchicago.edu/page/funding-agencies-global-health-opportunities">https://cgh.uchicago.edu/page/funding-agencies-global-health-opportunities</a> |
| <b>BOND</b>                                                 | Bond is a UK membership body for organisations working in international development. They have over 450 members ranging from large agencies with a world-wide presence to smaller, specialist organisations.                                                                                                  | A list of funding opportunities provided by Bond’s members and other institutions is available on BOND’s website.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | <a href="https://www.bond.org.uk/hubs/funding-opportunities">https://www.bond.org.uk/hubs/funding-opportunities</a>                                                 |
| <b>IZUMI Foundation</b>                                     | IZUMI foundation seeks to improve the health outcomes of people living in the most impoverished areas of Africa, Latin American, and the Caribbean.                                                                                                                                                           | <p><b>Type of projects funded:</b> Infectious disease, neglected tropical diseases, malnutrition, maternal and neonatal health, health care infrastructure initiatives.</p> <ul style="list-style-type: none"> <li>• <b>Countries:</b> Botswana, Burkina Faso, Ethiopia, Gambia, Ghana, Kenya, Lesotho, Madagascar, Malawi, Mali, Mozambique, Namibia, Niger, Nigeria, Rwanda, Senegal, South Africa, Swaziland, Tanzania, Uganda, Zambia, Bolivia, El Salvador, Guatemala, Guyana, Haiti, Honduras, Nicaragua and Paraguay</li> <li>• <b>Average grant size:</b> between \$45,000 and \$100,000 over 1 to 3 years</li> <li>• <b>Closing date:</b> Letters of Inquiry accepted April – June every year</li> </ul>                                                                                                                                              | <a href="http://izumi.org/funding-grants/how-to-apply-online/">http://izumi.org/funding-grants/how-to-apply-online/</a>                                             |
| <b>Hilden Charitable Trust</b>                              | The Hilden Charitable Fund is an unincorporated trust constituted under a trust deed dated 8th May 1963, charity registration no. 232591. The Fund was established by an initial gift from Anthony and Joan Rampton.                                                                                          | <p>Overseas grant making priorities are for projects working on community development, education, and health. Trustees will particularly welcome projects that address the needs and potential of girls and women</p> <p>UK registered NGOs and local NGOs may apply. UK charities must have a history of working overseas for at least 5 years and have an income of over £100,000 in their last two financial years, but not more than £500,000. Hilden hope that UK NGOs will encourage their local partners to apply directly. Local NGOs based overseas with a history of working for at least 5 years and have an income of over £25,000 in their last 2 financial years, but no more than £100,000 may apply directly</p> <p><b>Grant size:</b> average £5000. The donor is open to funding core costs.<br/> <b>Closing date:</b> 11 September 2018</p> | <a href="http://www.hildencharitablefund.org.uk/">http://www.hildencharitablefund.org.uk/</a>                                                                       |

| <p><b>UBS Optimus Foundation</b></p>                                 | <p>The UBS Optimus Foundation makes UBS unique in the financial industry. Because only UBS has a foundation that is staffed by leading <b>experts in philanthropy</b> and has a client offering designed to deliver measurable, long-term benefits to the world's most vulnerable children.</p> <p>At the Foundation, we recognize that our clients want to use their wealth for good and to catalyze positive social change. By connecting them with outstanding entrepreneurs who share that vision, we help them achieve their philanthropic goals.</p> | <p><b>Type of projects:</b> child health, education, child protection and/or early child development<br/> <b>Location:</b> Brazil, Mexico, Peru, Sierra Leone, Ghana, Ivory Coast, Liberia, South Africa, Bangladesh, China (including Hong Kong), India, Indonesia, Nepal, the Philippines, Switzerland, Germany and the United Kingdom</p>                                                                                                                                                        | <p><a href="https://www.ubs.com/microsites/optimus-foundation/en/about-us.html">https://www.ubs.com/microsites/optimus-foundation/en/about-us.html</a></p> |
| <p><b>The Waterloo Foundation World development Small grants</b></p> | <p>The Waterloo Foundation (TWF) is an independent grant-making Foundation. We are most interested in projects that help globally, with particular focus on the disparity of opportunities, wealth and the unsustainable use of the world's natural resources. To that end, our main programmes support:</p>                                                                                                                                                                                                                                               | <p><b>Type of projects:</b> nutrition, sexual and reproductive health, education and WASH<br/> <b>Location:</b> worldwide<br/> <b>Eligibility:</b> grants will be prioritised for small UK charities led by committed individuals, especially those based in Wales, which are working to deliver projects in developing countries<br/> <b>Grant size:</b> under £10,000 over a one to two year period</p>                                                                                           | <p><a href="http://waterloofoundation.org.uk/">http://waterloofoundation.org.uk/</a></p>                                                                   |

**Chrysalis Trust**

The Chrysalis Trust was established in 2009. It makes grants to UK registered charities providing public benefit. Less popular and harder to fund projects are prioritised. The Trust supports local projects in the North East of England only, national organisations providing benefit across the UK, as well as, international charities registered in the UK.

The trust is able to provide support for both capital projects and core funding with 'one off' donations. It is unable to support any project which should or could be funded by a statutory body.

**Type of projects:** relief of poverty and disability; provision of access to shelter, education, healthcare and water

**Eligibility:** charities registered in the UK

**Grant size:** £1000 - £10,000

**Closing date:** 15 December 2018

| <b>King's Health Partners</b>                                                      | Academic Health Science Centre where world-class research, education and clinical practice are brought together for the benefit of patients.                                                                                                               | The King's Health Partners Research and Development Challenge Fund aims to support researchers from across our partners to explore and develop innovative ideas that may lead to new discoveries, therapies or diagnostics with the potential to transform human health. The Fund is designed to help researchers develop an evidence-base sufficient to enable them to apply for more substantial funding from established bodies such as the Medical Research Council or the Wellcome Trust.                                                                                                                                                                                                                                             | <a href="http://www.kingshealthpartners.org/research/funding-opportunities">http://www.kingshealthpartners.org/research/funding-opportunities</a> |
| <b>Medical Research Council</b>                                                    | The <b>MRC</b> works to improve the health of people in the UK - and around the world - by supporting excellent science, and training the very best scientists.                                                                                            | Research projects that provide evidence on how to strengthen and improve health systems for people living in low- and middle-income countries. Focus on six main science areas: <ul style="list-style-type: none"> <li>• Infections &amp; immunity</li> <li>• Molecular &amp; cellular medicine</li> <li>• Neurosciences &amp; mental health</li> <li>• Population &amp; systems medicine</li> <li>• Global health</li> <li>• Translation</li> </ul>                                                                                                                                                                                                                                                                                       | <a href="https://www.mrc.ac.uk/funding/">https://www.mrc.ac.uk/funding/</a>                                                                       |
| <b>National Institutes of Health (NIH)</b>                                         | NIH's mission is to seek fundamental knowledge about the nature and behaviour of living systems and the application of that knowledge to enhance health, lengthen life, and reduce illness and disability.                                                 | NIH supports Research Training and Career Development programs to help prepare individuals for careers in biomedical, behavioural, social, and clinical research. NIH offers funding for many types of grants, contracts, and even programs that help repay loans for researchers.                                                                                                                                                                                                                                                                                                                                                                                                                                                         | <a href="https://www.nih.gov/grants-funding">https://www.nih.gov/grants-funding</a>                                                               |
| <b>The European &amp; Developing Countries Clinical Trials Partnership (EDCTP)</b> | EDCTP aims to support collaborative research that accelerates the clinical development of new or improved interventions to prevent or treat HIV/AIDS, tuberculosis, malaria and other poverty-related infectious diseases prevalent in sub-Saharan Africa. | EDCTP funds clinical research to accelerate the development of new or improved drugs, vaccines, microbicides and diagnostics against HIV/AIDS, tuberculosis and malaria as well as other poverty-related infectious diseases in sub-Saharan Africa, with a focus on phase II and III clinical trials.<br><br><b>Location:</b> sub-Saharan Africa<br><b>Eligibility:</b> consortia comprising a minimum of three independent legal entities. Two shall be established in two different Participating States (European Partner States) and one must be in a sub-Saharan African country<br><b>Grant size:</b> between €1 - 3 million over 24 and 48 months. 6-12 proposals are expected to be funded<br><b>Closing date:</b> 11 October 2018 | <a href="http://www.edctp.org/funding-opportunities/grant-types/">http://www.edctp.org/funding-opportunities/grant-types/</a>                     |

|                                                         |                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                     |
