About THET

Today, one billion people will never see a qualified health worker in their lives.

Since 1988, THET has been working to change this. From reducing maternal deaths in Uganda to improving the quality of hospital care for injured children in Myanmar, we work to strengthen local health systems and build a healthier future for all.

We do this by leveraging the expertise and energy of the UK health community, supporting Health Partnerships between NHS institutions, Royal Colleges and academic institutions in the UK and those overseas.

In the past ten years THET has reached over 100,000 health workers across 31 countries in Africa, the Middle East and Asia in partnership with over 130 UK institutions.
