

Trustee Job Description and Person Specification (Nursing and/or Midwifery)

One billion people will never see a qualified health worker in their lives.

We are working to change that

For over thirty years THET has been training health workers to build a world where everyone has access to affordable and quality healthcare, to build a healthier future for all.

We do this by leveraging the expertise and energy of the UK health community, supporting health partnerships between hospitals, colleges and clinics in the UK and those overseas.

In the past nine years alone, THET has reached over 100,000 health workers across 31 countries in Africa and Asia in partnership with over 130 UK institutions.

Our work strengthens health services and systems in low and middle income countries, developing UK and LMIC health professionals and benefiting the NHS.
